

PECO Family Jams Tuna Can Assemblages

If you'd like to follow along with our video, please visit <https://www.phillymagicgardens.org/public-programs/family-jams/>

MATERIALS NEEDED

- Glue
 - Tuna Can (or similar small can)
 - Tape (for edges of the can)
 - Small items such as beads, shells, cotton balls, etc.
 - Scissors
-

INSTRUCTIONS

1. Make sure the tuna can has tape covering the rim of the can so there are no sharp edges.
2. Spread out the decorative pieces on a table or tray. You may want to add some of your own things, like loose buttons or bottle caps.
3. Begin gluing objects inside the can. Build it up in layers, working from the bottom of the can toward the opening.
4. Decorate the outside of the can, too. You can use pieces from the craft kit, or scraps from your recycling bin, like old magazines, tin foil, or newspaper.
